

ULTRASOUND CONSENT FORM

Dr _____ has recommended an ultrasound with Dr Brown

Dr. Cory Brown is a board-certified internal medicine specialist and the owner of VetScan Mobile Veterinary Internal Medicine Services, a mobile imaging and internal medicine practice in the Columbus, Ohio area. Dr Brown comes to Linworth Animal Hospital to perform ultrasounds.

We will call Dr Brown, set up an appointment time for your pet and call you with the day and time. If this day is not agreeable to you, we will make every attempt to reschedule for a different day. Your pet will be dropped off for the ultrasound. You will not be seeing Dr. Brown.

What to expect for _____'s ultrasound

- Do not feed your pet after midnight the night before or the morning of the ultrasound. You may provide water throughout that whole time.
- You will have a scheduled time to drop off your pet. Please make sure you are on time as Dr Brown follows a tight schedule at many clinics.
- Your pet will have a shaved abdomen for the ultrasound.
- Your pet may require medications prior to and/or sedation with or without anesthesia the day of the ultrasound. **YOUR CONSENT ON THIS FORM GIVES PERMISSION TO SEDATE OR ANESTHETIZE IF NECESSARY.**
- Dr Truesdale or Dr Sheridan will call you with the results of the ultrasound as soon as possible. We will then discuss any additional recommendations or testing and give you an approximate time to pick up your pet.
- There may be additional charges not covered in your estimate associated with the procedure. Please feel free to ask any questions about cost or anything else associated with the ultrasound or testing.

PLEASE LIST ANY CURRENT MEDICATIONS AND TIMES GIVEN

HAS YOUR PET HAD ANY FOOD SINCE MIDNIGHT? YES___ NO___
